1. What's the word?

Write the word under the pictures.

Earth	forest	animals	plants	tree	ocean
sun	paper	rubbish	the Arctic	farm	factory
					
rubbish	Earth	plants	tree	factory	the Arctic
					
paper	ocean	sun	farm	animals	forest

2. Fill it in!

Watch the story. Write the missing words in the sentences.

- Forests are home to over half of the world's animals and plants.
- Trees clean the air and produce oxygen for us to breathe.
- The oceans are home to millions of marine animals.
- They absorb the sun's heat and transfer it to the atmosphere.
- At opposite ends of the world, the Arctic and Antarctic are freezing cold lands.
- It is so cold that the sea is covered in ice.
- Rivers collect rain water and carry it to the oceans.
- Along the way, plants absorb and clean the water so it is safe for us to drink.

3. Make it right!

Watch the story. Find the mistake, underline it and write the correct word.

- We destroy more than 36 football fields of oceans every minute. forests
- We throw away thousands of trees in plastic and card every day. paper
- A lot of the food we produce on land pollutes the oceans. rubbish
- Turtles mistake plastic bags for jellyfish and die when they see them. eat
- The fuel we use for energy makes the climate colder. warmer
- As it gets warmer, the ice melts and the sea rises. The sea disappears. land
- Farms and schools pollute the rivers with pesticides and chemicals. factories
- Every day we each flush about 50 litres of paper down the toilet. water
