Hello everybody! Do you want to know some secrets about sea animals and rock pools? Read these interesting facts about sea life and do the following activities. Enjoy the sea!

Secrets of the sea

Rock pools are small pools of sea water.
Rock pools are full of exciting sea life.
You need to wear shoes to explore rock pools.

Here are some secrets of the sea you can discover in rock pools.

This is a crab. It's walking *sideways* and it's looking for food.

There are more than 4,500 *species* of crabs.
Most species live in coastal areas of *salty*, fresh or brackish water.

This is seaweed. Lots of Little fish are hiding in the seaweed.

Most of the world's oxygen (about 70%) comes from seaweeds and other microscopic *algae*. It comes in many *shapes* and *sizes*

This is a starfish; it's resting in the rock pool. It's safe from the *waves.* They usually have five arms.
They cannot survive in fresh water.

This is a sea urchin. It's got sharp *spikes.* Be careful not to touch it.
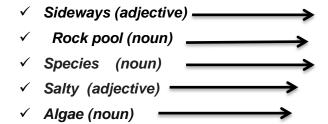

Main enemies of sea urchins are otters, sea birds, fish, crabs, and humans.

This is a little seahorse; it's swimming in the rock pool.

Seahorses prefer to swim in pairs with their tails *linked* together. Except for crabs, few marine *predators* eat the seahorse. It is too *bony* and indigestible.
