

## 1. Let's practice English!

Per a aquesta setmana us proposem treballar aquest text: **GREECE GETS TOURISTS**. A partir d'ell, posarem en marxa les quatre destreses (escoltar, llegir, escriure i parlar), per aquest ordre:

1. First, listen the audio. What it's about? Take notes if you need It.  
<https://youtu.be/GHDQ-fiBUmk>
2. Secondly, read the text. In this way, you will check if you have understood the audio.
3. Next, answer the questions about the text.
4. And finally, choose a phrase from the text that you liked. Look it up in the audio and try to repeat it by checking the pronunciation.

Greece is a country in Europe. Many tourists visit it every year. Last year, Greece gets more than \$19 billion from **tourism**.

Now, the situation is different. Many countries around the world have difficult rules about traveling. Airlines are canceling their flights. People cannot travel. It is bad for travel companies, hotels, and restaurants.

Greece has a new idea. The country starts a website. The website is for **tourists**. It is very interesting and **attractive**. There are videos and articles about Greece. They show Greek history, culture, or famous people.

Greece hopes that tourists like the website. The Greek government's tourism organization hopes that tourists come back when the coronavirus **pandemic** ends.

Difficult words: **tourism** (when people visit different places for a holiday or business), **tourist** (a person who travels for a holiday or business), **attractive** (very interesting and pleasant), **pandemic** (when there is a disease in many countries).
