

A 5R ADVENT CALENDAR

Escola La Llàntia. Mataró (Barcelona) 5th level

We decided to make an advent calendar using the 5Rs

REFUSE new materials

REUSE materials we had at school or at home: hygienic rolls, rest of wrapping paper, glossy paper...

REDUCE expenses by not buying chocolates

RECYCLE colour paper to make the small present for each roll

REPAIR we are not sure that this advent calendar can resist all the days until Christmas, so if it is broken we plan to repair it

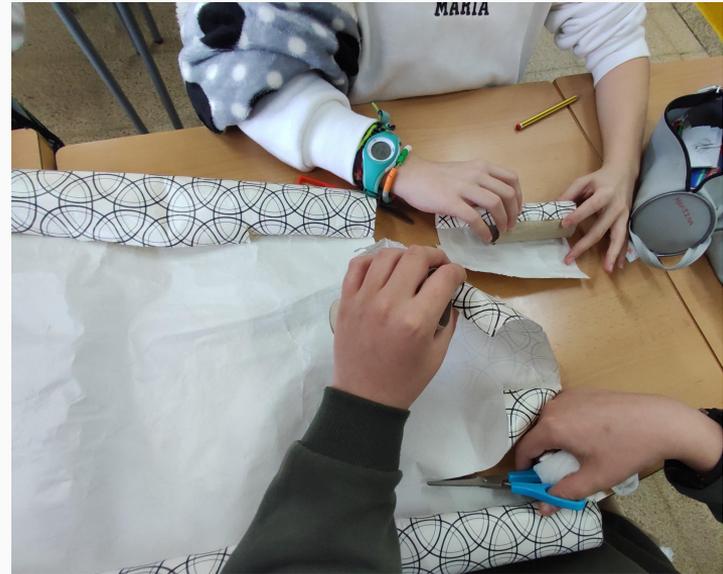

Step 1

Materials needed:

Paper, glue, scissors, brush, hot glue gun, rolls, pen, paper and scissors.

Step 2

Wrap the rolls with old paper.

Step 3

Stick the paper on the rolls.

Step 4

Cut out the circles to cover the end of the rolls.

Step 5

Now, with the colour paper make origami figurines .

Step 6

Insert one origami figurine into each roll

Step 7

Cover the rolls with the cardboard circles with the numbers on it.

Step 8

With the gun put some hot glue on each roll.

Step 9
Stick the rolls on a pyramid.

Step 10
Meanwhile, prepare the presentation.

AND THAT IS THE RESULT: A 5R ADVENT CALENDAR READY TO USE.
