1-Reading comprehension.

I'm not crazy about TV and I don't think it's good for families. There is one family in my street with three teenage kids. The kids watch TV all day and the parents don't

talk to their children because they watch TV too. There are four TV sets in the house and they are on all the time! The kids stay in their bedrooms watching TV and the mother and father do the same thing in the living room. It's really awful!

Dr Ruth Watson

What do I think about TV? I can't live without it! I've got four children under six and there are lots of things I have to do every day. If they sit on the sofa for a few hours and watch cartoons, I can wash clothes, clean the house and make dinner. So I enjoy having TV in my house.

Felicity Jones

My three-year-old daughter has never watched a TV programme in her life. I don't think TV is very good for a young child. Many shows are for adults and they are not suitable for my daughter. Commercials are broadcast on every channel too. If she saw all the silly products in the commercials, she'd want them. I think I'll keep her away from TV for a long time.
