PART B: PROFILE OF THE PARTNER

Status: Public (PB)

Type: Vocational Education and Training Centre

Activity level: Regional (R), National (N), European (E), International (I)

Institut Agustí Serra i Fontanet is a public secondary and vocational school located in Sabadell (Barcelona, Catalonia, Spain). The school provides education in Compulsory Secondary Education (ESO), Baccaalaureate, and Vocational Education and Training (VET) at both Intermediate and Higher levels.

Our vocational programmes include Administration and Management, Commerce and Marketing, Electricity and Electronics, and Sports. The school community consists of approximately 1,500 students and 150 teachers and staff members.

The school's main motivation for joining the Erasmus+ programme is to promote internationalisation, improve the employability and professional skills of our VET students, and foster linguistic, intercultural, and personal competences. Through these experiences, we aim to strengthen our partnerships with European institutions and provide our students with real opportunities for growth and mobility.

This is the first year our centre participates in Erasmus+ projects as a sending institution, and we are highly motivated to develop a strong European network. The Mobility Team, coordinated by Mr Alberto Jiménez Montoya (Head of Department and Erasmus+ Coordinator), is composed of Jordi Trullols, Jordi Expósito, Aleix Martí, and Maria Faz, working closely with the headmaster, Mr Lope López Susarte, and other teaching staff.

Institut Agustí Serra i Fontanet is strongly committed to vocational education, maintaining close collaboration with local companies to organise work-based learning placements. The school also promotes inclusive education, supporting students with different backgrounds and learning needs, and encourages innovation and teamwork among teachers and students.

Sabadell is an industrial city near Barcelona, with a long tradition in business, innovation, and vocational training. This environment provides excellent opportunities for cooperation between schools, companies, and local institutions, making our city a dynamic setting for Erasmus+ mobility experiences.
