

# ERASMUS+ KA1 BREWING UP ABILITIES

## PROJECT-BASED LEARNING (PBL) IN THE CLASSROOM: SETUP, INTEGRATION AND REFLECTION FLORENCE, 22nd-27th November 2021

As one of the actions of the KA1 project, one teacher from INS Alcarràs took part in a teacher training course offered by Europass Teacher Academy in Florence (Italy)

### PROJECT GOALS

- Search strategies to improve the teacher abilities
- Update and broaden pedagogical practices.
- One of the objectives of our project is the training of teachers to improve their work as educators and that is why we chose this PBL course in order to add new methodologies in our classes and thus motivate our students and facilitate their learning progress.

# ACTIONS

.Active participation in the activities of the course, both in the specific ones of the course with the rest of the assisting teachers , and in the cultural activities proposed, such as the guided tour of Florence or the tour of Tuscany proposed to the teachers participating in the different courses of Europass.

All these activities have allowed us to:

.Learn new strategies to apply them in our classes with our students.

.Observe how work is done in different countries and also learn about the educational systems of the teachers participating in the course

.Make new contacts for eventual future projects
