

SANT JORDI LITERARY CONTEST 2020

Well, it all began the last day of quarantine. The youth wanted to go out and see their friends, so all the teenagers set up a party on a beach called "Dragon". But in the party were two surprises. The first was that a boy called Sergio, who was the exboyfriend of Sabrina, was going to the party. The second surprise was that Sabrina broke up with Sergio because, according to Sabrina, Sergio misused her. But they never found out the truth, because Sergio moved to Spain.

The party was great, but the next day, when all the teenagers woke up, they noticed that Sabrina and Sergio were missing. All the people started to search for both and they found Sabrina holding a red rose. The rose was as red as the dead body of Sergio.

The legend says that Sergio tried to hurt Sabrina but a dragon showed up and protected Sabrina. And after that, the dragon became a rose as beautiful as her.

Now you know why girls always have a rose, so be careful.
