

The time has come
to meet with friends
and family and remember
those who are no longer, present

The time has come
to decorate houses
with the tree and its light
with more illusion than ever

We went out into the street
to make snowman sweet
and we so to the ice rinks
to skate while we sing

Has been snowing all day
and here everyone enjoying
while we go to the square
to see the great illuminated tree

Santa Claus comes with his gift filled sled
for us pushed from his reindeer

The time has come
to meet with friends
and family and remember
those who are no longer, present

The time has come
to decorate houses
with the tree and its light
with more illusion than ever

We went out into the street
to make snowman sweet
and we so to the ice rinks
to skate while we sing
