

# SCHOOL CAMP: A FUNNY AND EDUCATIVE CAMP IN ENGLISH!

1. The first day was active. When we arrived, we did some games in class groups, we settle down, we visit the city freely and, at night, we went to the beach to do a very fun competitive game.

The rooms were very well organized, and the beds were very comfortable!

2. During the morning of our second day we went to the beach to play a game and we also had some free time where we could do whatever we wanted. In the afternoon, we went to the city and played a game where we had to interact with the people of l'Escala. In the evening, we did a disco! We played music of all styles... It was great entertainment!

3. Just like the morning of the inner day, we voluntarily got up early to do morning sports while watching the incredible sunrise. It was one of the best experiences, without a doubt. In the afternoon, with much regret, we packed our bags, tidied everything up, and at about four o'clock we got back on the bus to school.
