

OUR EXPERIENCE IN PLANOLES!

THE TRANSPORT 😊

The means of transport that we used to come and go was a coach (right now I don't remember the company, but it was From Cornellà).

The journey was not long, about an hour and a half or so.

On the way he rode a few hahahahaha until we started singing children songs like the canine patrol imagine.

THE ROOMS 😊

The rooms were very comfortable and very cool.

We shared our room with our friends:
Rocio, Valentina, Andrea, Mia and us
(Martina and Lucía).

The room consisted of two bunk beds and the rest were normal beds. At night it was a catastrophe!

ESTABLISHMENT 😊

The hostel we went to is called Albert Pere Figueres. It was very cool, the hostel had all two football fields and a basketball court. we Also went to another bigger soccer field. Buah, all crazy.

Another point in favor was that we were always next to nature wherever we went.

OUR MONITORS 😊

- All of our monitors were from other parts of the world: Australia, Canadá, London... There were six monitors, and they were called: Sky, Sophie, Ira, Ema and Mike. They were amazing!!!
- They treated us very well, with much affection, and greeting us whenever they saw us. We give them a 10! The final day was so sad. We had become fond of them and we were sorry to say goodbye.

ALL THE GAMES 😊

- We played a lot of games! They were amazing! The game of the rocks, the other game of the bees, the game of the flag... This was the best part of the day! I need more activities like that, please!!! Well, we loved this part of the dat so much , 'cause we love games!

FOOD 😊

There were some dishes that were impossible to swallow, but there were others that looked like michelin 5-star delicacies 😊 .

EXCURSIONS 😊

We went on a mountain excursion. It was exhausting. I think nobody liked it. It was hard to climb, and much worse to go down.

It was horrible for me, really. But it was one more experience.

NIGHTS 😊

The nights were very fun. We did more games, but the best came at night in the room. We played in the dark hiding place and told scary stories. they were "terrifyingly" fun nights.

EXPERIENCE 😊

LUCÍA:

I really liked it except when we had to go on that excursion. At school we for run 12 minutes and we already die 😊.

I would repeat this experience without a doubt since treatment was wonderful in all aspects and apart from that we learnt a lot.

MARTINA:

I had a great time.

I have learned a lot and they have treated us very well.

I would repeat the experience one million times more, seriously.

I thank the teachers who have thought of me to live this experience. Thanks! :)
