WHO HELDS ME?

I am very happy because my family are with me every day: my mother, my father, my sisters and my grandparents they are help me every time in my worst days. They are everything.

Apart from my family MY BEST FRIEND Souad, she supports me in all things and we are not friends we are Sisters. She helped me when no one did it. She helped me in a thousand things, and with it I feel very at ease. We understand each other very well and can communicate with the look. Also my friends Iman, Yus ,Farah,Mariam they are my friends since elementary school we are always in group, the class is differnt but no problem it's good. In conclution i think im very happy with the people around me and supports me every day.

MY MEMORIES (I)

In my opinion childhood is a very important stage in our lives , because they were the first years of living after birth. It doesn't define us, but our personality is often based on the childhood we've had. In childhood we learned a lot of things that now seems normal to us. We learned to walk, to eat , to get dressed, to talk, to play...

I was born on 26 of march 2005 , in Nador (Morocco). Few hours after my cousin, in my family it was two births at once. My old memory was my first school day, and was an important day for me because in school I made good friends. My childhood was Funny and happy, and I grew up in a great and lovely family. But it was quiet because I grew up in a small village and the people around me were loving and calm.

My parents told me that when I was little I was quiet , but sometimes I was very noisy. I liked to play with children around me, but I always ended up crying about everything. Apart from that I was afraid to be alone or get lost, for example in a supermarket. In my family my father worked most of the days, but I remember that on the weekends we always went to mountain excursions. Every day when I left school my mother, my sister and I were going to a park. I used to spend so much time with my grandmother and that's why she's the most influential person in my life. During the holidays I used to go to Morocco to visit my family, I used go to the beach with my Moroccan Friends.

MY MEMORIES (II)

I was studying In Can Coll school in, Torrelles de Llobregat and after in Marià Fortuny. I liked the school, was easier in every way and less stressed and funny, and the most important I made many friends in school. My first best friend was Maria a magnificent girl but now, I don't have contact with her.

We went together every trip of school. for example my last trip with Maria was to "la Garroxa" . We went to see the volcanos, it was an unforgettable excursion, we visited a lot of sites and the monitors prepared us a disco. I remember I danced with my first "love" Oscar, he was a beautiful boy and his twin was my best friend. We had nicknames, I was calling him chucky and he was calling me "salmon".

Last night before returning home, Barça played against Bayern Munich and Barça won. In my childhood my first house was in the mountains, and I moved two times to flat and I liked all of them.

My last house had a big garden and used to play to my favourite games with my sisters: game of bottle, cather's game. I love animals and I always wanted a pet but I just had 3 chick.

I think I had a very happy and funny childhood, with my family and friends around me. I moved 2 times and I had many friends and I'm happy.

Also I had an education and this is very important for me.

MY FUTURE

The next course I'm going to do humanistic baccalaureate. I will study with my friends in London, Ireland or Barcelona University and in future I will be a english teacher, but I think study in one english country it's better because the level is higher.

I know I'm not perfect in english but I love this language so much, and my dream is to teach it to other children.

I will get married and have family and childrens, also travel to the many countries ; USA, Canada, Turquia... and Saudi Arabia to go hajj (MECCA).

Actually I live in a flat, but In one future I bought a big house out of the city because I love tranquility and nature, with a big garden to have many pets because I love animals: horses, cats, rabbits, ducks and others. To play with the children and do their parties, and have many beautiful memories with family.

Besides to memorize coran complet , and practice more about my religion(Islam).

And I will do things for my parents, they are doing everything for my sisters and me and I would give them something back.

I hope that in the future this is fulfilled.
