# MY MEMORIES

My name is Fadwa and I am 15 years old. I was born on October 2, 2005 in Morocco. When I was born, I remember my parents wanted to put me another name but at the last moment they called me Fadwa. My earliest memory is when I started school for the first time and my happiest memory is when I was 4 years old and my sister was born.

The most influential person to me as a child was my grandmother. She and my parents say that I was a naughty child because for example I painted the walls of my house with colored pencils.

But also they say I was cheerful and happy because I was always laughing.

I lived in an apartment and my bedroom wasn't very big, the walls were pink and there were two beds, a desk and a closet. There I was very afraid of sleep alone and of the dark.

I studied at the Marià Fortuny school. My favorite subject was math and I liked the yard and the teachers it had, but I didn't like some of my classmates.

In the summertime I was going to my grandmother's house a lot because she has a swimming pool and from time to time I went to the beach but I didn't do any trips.

I was happy because I had my family around me and the people I love the most.
