

# MY BODY MAPPING:

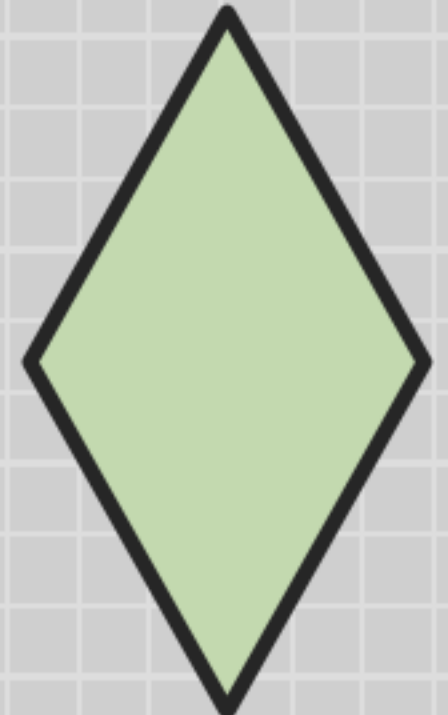

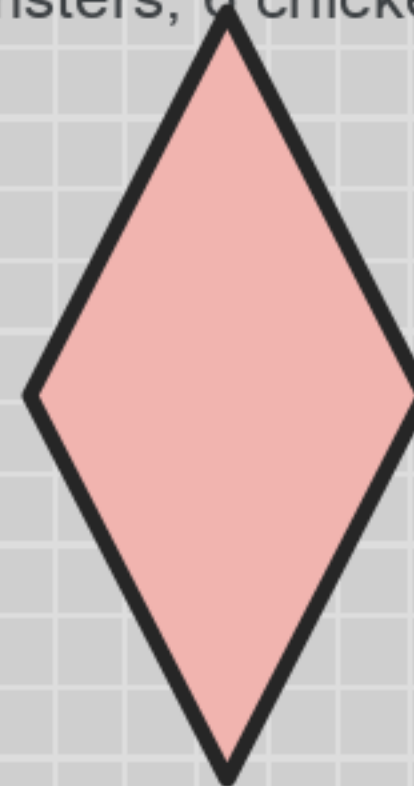

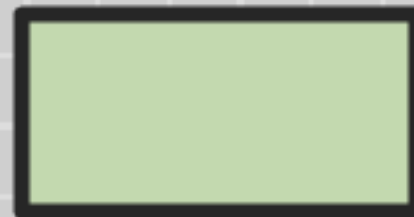

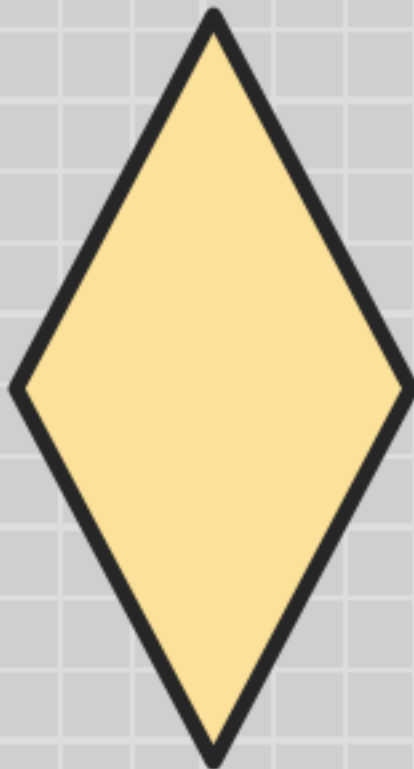

# My memories:

I was born on 30 th of September that same day two of my cousins were born (they are also girls).

My happiest memory was when my sister was born, I was so happy 'cause I always wanted a sister but I only had brothers now my sister is 2 years old. When I was little I had many nicknames, my friends call me Yus also my family used to call me "Suisra" (Switzerland) or Russia 'cause my little cousin called me that and it was funny so they started to call me like a country.

During my childhood I had many pets. I had four fishes, two hamsters, 6 chickens, a rooster and 9 cats (but they ran away or died ). Now I have 4 small cats and also 7 chickens.

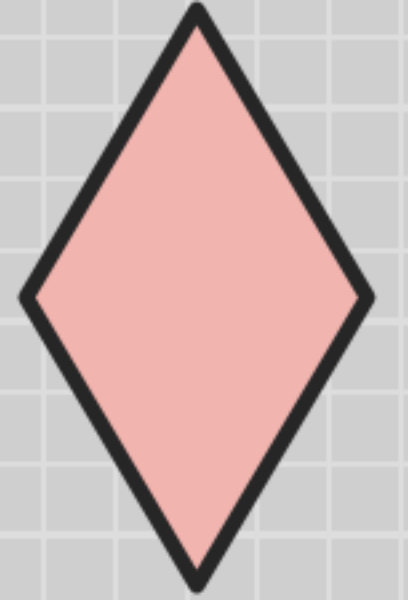

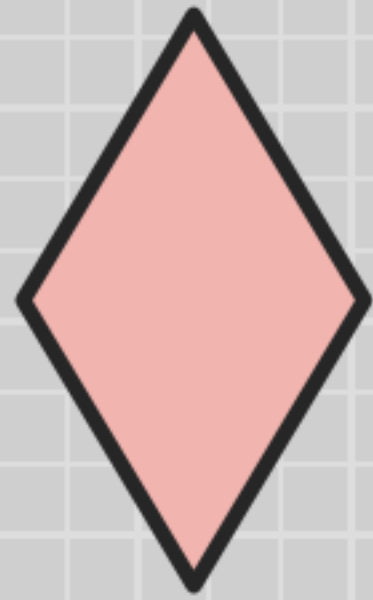

# My memories:

The elementary school I went to, was Mariá Fortuny, my favorite subject was (and still is) English. What I liked most about school was making new friends and what I liked least was that people laughed at me for being very sentimental and crying quickly.

At school there was always a girl asking if we are in love with someone but I honestly don't remember who my first love was. I never had a broken heart, during primary and secondary school, some boys loved me but I never rejected them because they didn't come forward, they just told a friend and she told me, but I ignored them.

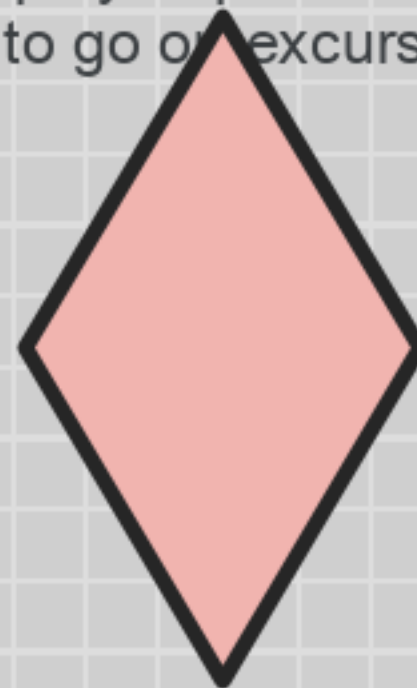

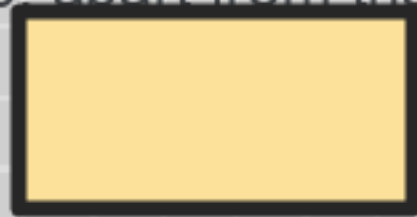

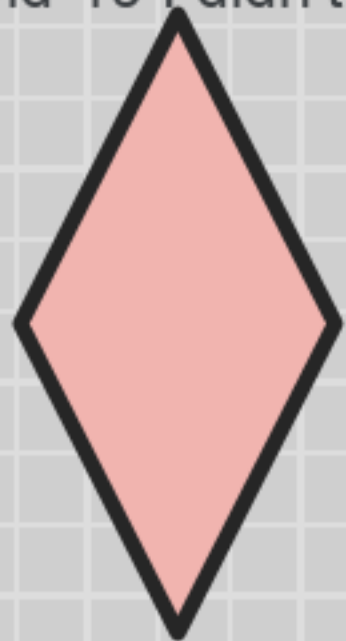

Before, I lived very close to the school, but we had to move, I didn't like the idea very much because all my friends lived there and I was going to stop playing with them, my favourite game was hide-and-seek, I always played it with my neighbour who was my best friend. Before we moved my room was pink (painted by my father and my uncles) it had pictures of moons and stars and it also had pictures that I had painted myself. I had a desk where I did my homework and a television on top, my closet had flower drawings, behind the door there was a piece of furniture where to put the blankets, also I had a rug and a very soft chair and I had flowerpots at the window (I loved my old room). Now I live in a rented apartment.

# My memories:

When I was two years old I went with my parents to the Saint George park, I was very chubby and I saw a cat so I started to chase it, the cat went through the fences of the park, I wanted to follow it so I put my head in but I got stuck, in the end my father came and took me out and also when I was 3 years old we went on a trip and in a car of five people there were eight (my dad, my mom, my aunt, my uncle, my other uncle, my cousin, my brother and I), and suddenly the police stopped the car and they hid us under the skirts of my mother and my aunt, when the policeman arrived, my father rolled down the window and the policeman greeted him, but no one answered, so I came out of my hiding place and greeted him! The policeman laughed and didn't give us a ticket.

In summer I went to my farmhouse. In the morning I helped my mom, feed my chickens and swim in the pool with my brothers. In the afternoon I prepared tea and read or watched Hawaii 5-0, and at night I played parchesi with my father, mother and brothers. because of Covid-19 I didn't do any trip, apart from that, my parents are too lazy to go on excursions, because they are older.

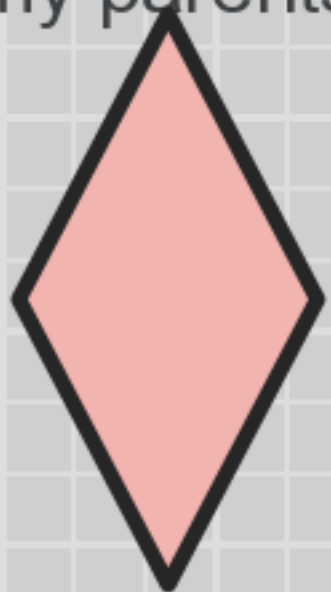

# My memories:

My neighbours always asked me why my father was always angry and I answered them that my father seems to be a very serious man but he is actually very funny, but when he is working he doesn't want anyone to bother him, and if someone does he will yell at him. My mother is a very calm, shy and sentimental woman (people say that I am like her), when I was little they customers.

Honestly, my childhood was very happy. My best friend was my neighbor, that's why we always played together, apart from that my uncles often came to visit us with their children and my dad always took us on excursions on weekends. Thank God I never lacked for anything and I thank my parents for being so loving with me.

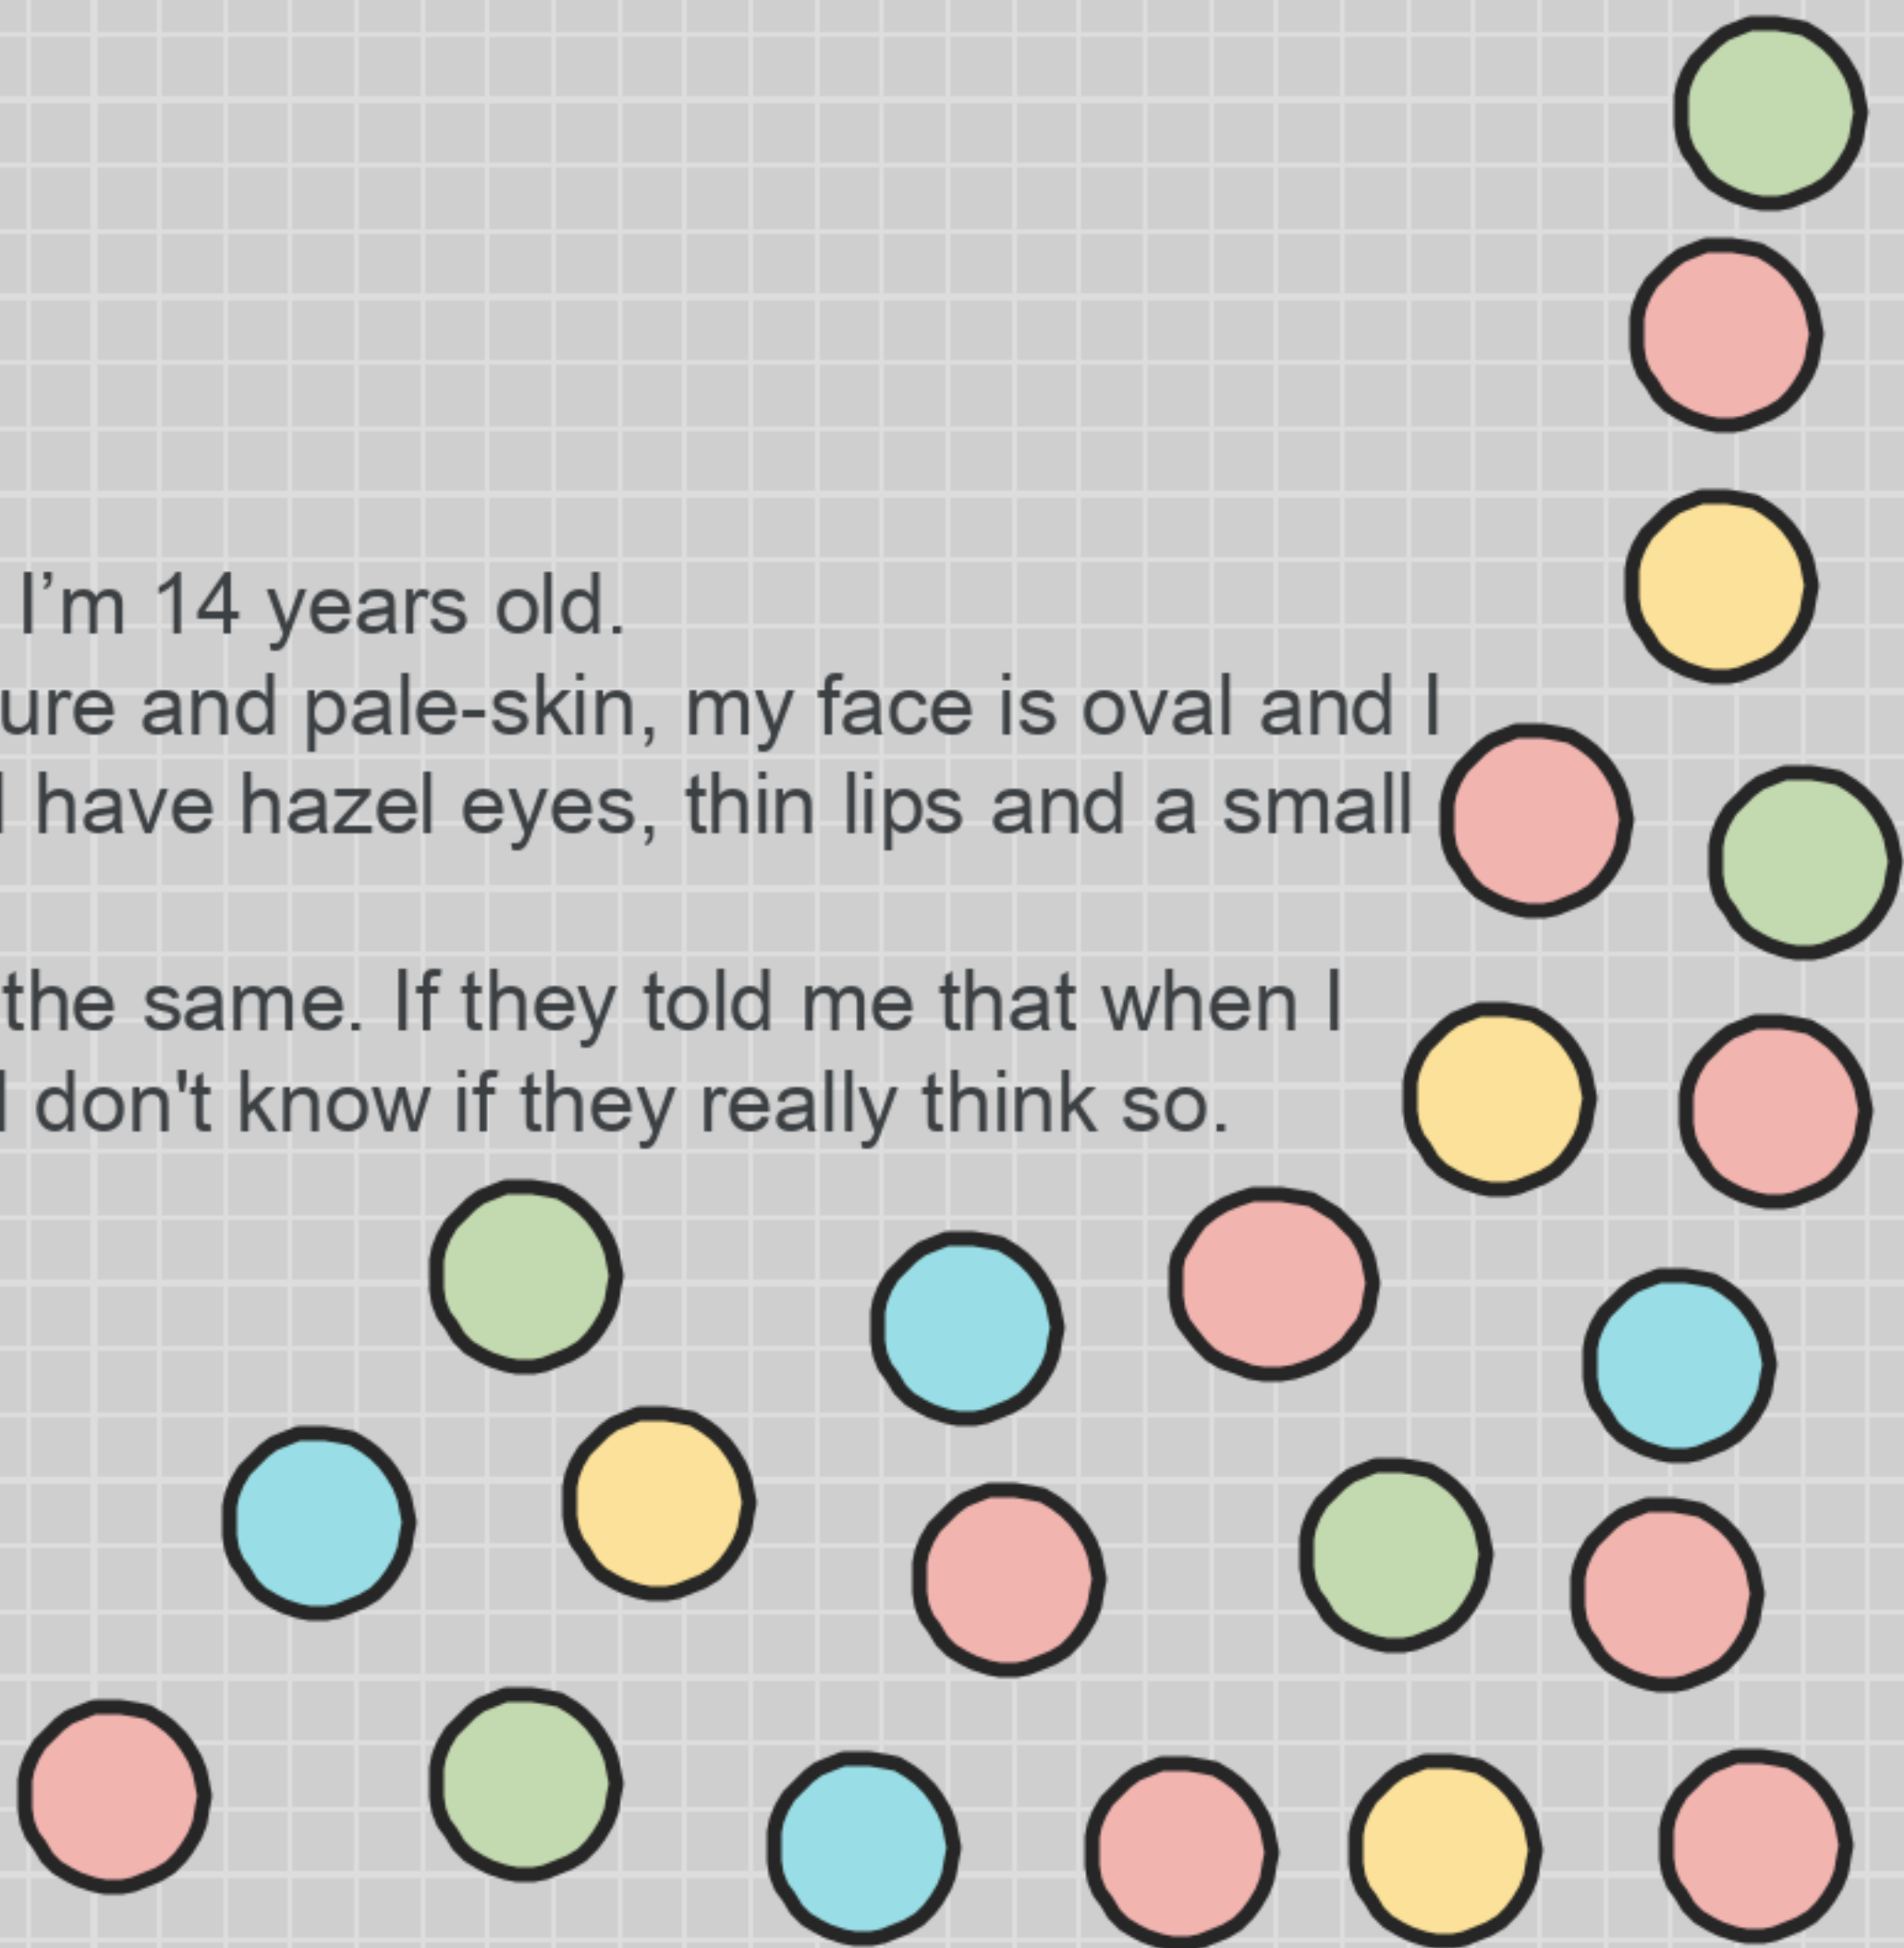

# My phisical appearance:

Hello! My name is Yousra Bounouafi and I'm 14 years old.

I'm a medium-height girl, I have a slim figure and pale-skin, my face is oval and I have wavy brown hair but I like to iron it. I have hazel eyes, thin lips and a small mouth. My eyes are brown.

People say I'm very cute but I don't think the same. If they told me that when I was little I would believe it but now at 14 I don't know if they really think so.

# My personality:

When asked to describe myself, my mind freezes (I don't know what to say) but I think I'm neat because I hate having trash on my table/desk and I think being in a tidy environment helps you have an orderly mind.

I don't like to speak in front of many people so I'm a shy person but I like to help others so I'm a generous and kind girl. I'm hard-working because I want to do a great job.

It costs me a lot making decisions or choosing something because I always think about the things I lose with the decisions I make so you could say I'm a hesitant person.

# My future:

Next year I'm going to study in the humanistic baccalaureate then I will study English philology at the University of Barcelona, when I finish my studies, I will be an English teacher at some high school in Reus but if I cannot be an English teacher 'cause it's a highly demanded work I will open an Academy (but I really want to work in a high school). When I work I will save money to buy an apartment, renovate it and rent it, so if one day my work goes wrong I will have some money.

I'm going to live always here in Reus but I would like to travel to Ukraine, Romania, Russia, Scotland, Czech Republic, Estonia, Lithuania, Poland and Austria.

When I say "live in Reus" I mean to live in the city or near it (suburb), I have a farmhouse in the Blancafort suburb but I can't live in it forever because my parents will live there so I couldn't live there with my husband and my children, but I would like to live in a farmhouse with cats, rabbits and chickens. I would like to get married and start a family even though I don't care how many children I have.
