

BODY MAPPING

MY PHYSICAL APPEARANCE

So I'm 15 I'm a teenager, and it means I'm young. My height is medium and I have plump legs but a slim waist. I'm pale-skinned and I have a round face. My eyes are hazel and brown. I have wavy brown hair and always carry a ponytail. Talking about the face again I have a small mouth but full lips and I have got a turned-up nose. Finally I have got small ears.

<https://voca.ro/17mKKCWwMy51>

I'd like to get some small tattoos that have a meaning of my own.

My name is Carol and I'm 15 years old. And my birthday is 19th of July .

MY PERSONALITY

My personality, in general I'm shy and cheerful. I think I'm a quiet person, when I'm in a group with people I get quiet and only I observe and listen. I'm reliable, the people can tell me all the things they want. How I say before I'm cheerful, almost daily I have a smile on my face and laugh. I'm not selfish, frequently I try to help people and let my things, and I don't want all for myself, so I consider I'm generous. I'm very neat, especially with my notes, but with my room I'm not tidy enough. I think I'm clumsy because all the things I have, have fallen off, and with myself, too, because I hit myself everywhere. I consider I'm very patient, because for what my patient ends up should be a thing or person very annoying. I'm very demanding of myself, I have to have everything perfect, my homework, notes, things, my life. I have to be perfect. It's impossible I know because perfection doesn't exist but all my life has to be calculated. I'm hesitant and always need other opinions apart from mine. I don't know if I'm very shy but I'm, and explaining or showing a presentation in public or in front of my class is very complicated. I'm very sensitive and empty. I cry so much and I empathize with the problems of my friends, family

FEELINGS AND EMOTIONS

My parents are very protective, demanged, loving but they have a lot of character, too. My parents want the best for my sister and me. My grandparents are the best people. They have a lot of grandchildren and they love all for the same. They are loving and my grandparents have bad temper, too.

I was afraid of dogs. Because my sister was afraid of dogs, too. And all things she did or was afraid I did the same. I was afraid of more things, for example spiders or under my bed if there was a monster.

my favourite subject was music but I liked all subjects except naturals, and it is rare because now I'm doing subjects to be in a future doctor, biologist or anything in relation with the health service.

my favourite game was "la pilota sentada" or "polis y cacos" at school on break time, my friends and I played it and in physical education to warm up. Continuing to talk about school, my first best friend was a boy Ramon. I knew him when we were 1 year old and was my best friend until 6th grade.

I like draw, listening to music, watch series and films, I love the science too.

It's the same audio that the my memories.

MY ROUTINES

I wake up at 6:45 a.m or at 7:15 depending on the week, then I check my smartphone and I get up to go to the toilet, after it I get dressed and I go to the kitchen to have a breakfast, frequently, I drink a cup of milk or a cup of cappuccino with two toasts with butter and ham, while I'm checking my social networks. When I finish my breakfast I go to the bathroom to comb my hair, brush my teeth and wash my face. If I have some more time I check instagram again, but if I'm late that it's the normal of me I put my snack in the bag, I catch it, I put the mascar, I say goodbye to my mother and I leave home at 7:45 if I go walking, or at 8:15 if I go in car, always I go to school with my friend Adrià.

When I finish the classes I wait for my friend, and we go to the bus stop and we wait for my father or we go on the bus. About 15:30 I come back home. I say hello to my mother and then I have lunch alone while I watch a serie, film, etc. Then I go to the living room and at 16:30 I go to my room to do my homework and study. Always I have breakfast at 18:30 except Tuesday and Thursday when I go to an English classes at 18:30 - 20h. At nine o'clock more or less I have dinner with my mom, dad and sister, then we go to the living room and at 22:30 I prepare my supplies for the next day and at 23:00 I go to sleep.

WHO HELDS ME?

F•R•I•E•N•D•S

The most influential people were my family, especially my parents and my grandparents were the people that were in all of my childhood, they taught me all things I know now. And talking about them, my parents were very protective of me, they were cheerful, happy, loving, and always they wanted the best for me and for my sister. And my grandparents, so, they have a lot of grandchildren and they love all for the same. They are loving and my grandparents have bad temper. I love them, and I enjoyed summer when I went with my grandma to the street market and then we went to a cafeteria with my grandma's friend, and with my parents all the time I spent with them, in general with all of my family.

I had parakeets, a turtle and fishes, I didn't have a dog or cat but now I would like to have one.

I think I had good luck with my friends because most of them are my friends now. I lost friends and now I have some new friends and they are very special for me, they always help me, hear me and laugh with them.

The audio it's the same that the my memories.

MY MEMORIES

Hi, my name is Carol and I'm going to write my memories. I was born on 19th July in Reus. About my birth, I know I was born at 00:27h, and in the hospital were some of my uncles. In the morning went my sister and she was 4 years old and she said a phrase "Ha nacido de la panxa" and all of my family remember it, then I had to be admit me apart of the typical things because when my mother was pregnant had meningitis and the doctors wanted check me.

I had many nicknames for exemple: crybaby, carito, and many words beginning with "car" for example cartolina, cargol, etc. Other nickname was "Villancico" because the translation in spanish of my name is it.

My happiest memory was a Christmas' Night, it's a tradition of my family and is very special to me, when was a Christmas' Night a uncle of my family disguises himself as Santa Claus, and he gaves our Christma' gifts.

About me, childhood, how I was? So, my childhood was happy, funny, all the memories are like these. I think it was very special. Because I had all the things a child wants to have, toys, a sister, happy family, etc. I can't complain. Most of the people couldn't have these things that I had and I'm very thankful for it. When I was a kid my parents, family..., said I was crybaby, all the time cried, if my mother went I cried if my grandma went to the kitchen I cried, they said I was naughty, thrasher and I wasn't for loving, now I'm not loving neither but I'm more than when I was a child.

My school, I attended primary school in Maria Fortuny's school, and my favourite subject was music but I liked all subjects except naturals, and it is rare because now I'm doing subjects to be in a future doctor, biologist or anything in relation with the health service.

My first love was a boy I have known since we were a year old and he then was my best friend (He wasn't my first best friend). I had a heartbreak when I was in 1st ESO (my unic relation of my life) , before it I didn't have any relationship. My friends said I broke some hearts but at this moment I didn't know it.

During my summers, when I was little, when it was summer on weekends with my parents, cousins, we went to the mountain, to the beach or swimming pool but when my parents worked my sister and I we went to my grandparents' home and we stayed until my mum or dad finished work. And, when my parents had holidays we went to do a trip, I didn't do many trips but some, yes. When I was 5 we went to Valencia and I don't remember many things of this trip, the next year we went to Disneyland Paris, it's the travel that the most I liked but I want go again because some things I don't remember. At 7 we went to Almeria with my parents and uncles and the last one we went two times to Girona.

I lived in the same home until I was born, I lived in a flat and it has a terrace. I liked it because in summer I celebrated my birthday in the terrace and my sister and I did war of water, too. I lived in a community and we have a community swimming pool. At home we have parakeets, a turtle and fishes. I didn't have a dog or cat but now I would like to have one. The distribution of the rooms. My bedroom was blue, and with a decorative paper of bears, then I had another bedroom and it was pink with a brown cupboard and with a roller blind of a serie was called the witch.

MY FUTURE

My future, first I'm going to finish the highschool for then do scientist "batxillerat". I will study medicine or human biology. After studies or in university studies I want will go to live in other country for example France, United States or United kingdom. If I would study human biology I will go to live in Barcelona.

At 18 I will do my first tattoo it will be little but it will have a meaning for myself.

Between 28 and 30 years I want have my first child. I will have 3 children I want a girl and 2 boys but depend, if I have two girls and a boy it's the same the important is be mother. And I will live in a house with a garden with my husband. I will get married after I have all of my childrens.

I don't imagine a exactly future but I want be with some of my friends for example my best friend Roxana, I have now and for the rest of my life.

Another plan I will do is do the world tour, visit all the continents and many cultures to know how is the life in each place.

My sister and I have our adventures book and we have to do all things say in this book. I want do more things but I don't know how will be my life until 10 years.
