

MY CAREER PROJECT: BEAUTICIAN

In this job you have to do the acrylic nails, paint them, do the hair, wash it, brush it and cut it. Also put face mask to hydrate the skin and put make-up on the face.

I think that a normal day is going to wave a lot of work because there are going to be a lot of people. Depending on the place to work is going boring or not

AVERAGE WAGE

The average wage of a beautician is around 800 euros every month working in a beauty saloon but it can be more if you work in the center of the city. You can earn even more if you don't work in a beauty salon and you work in a hotel or a spa, around 1.200 euros every month

WORKING CONDITIONS

The working conditions depend on where you work and who you work with. Generally you can choose between a full time contract or half. If you have a beauty saloon you don't have a salary you earn what you work.

Also, there is going to be a lot of work every day because people take care of their image

STUDIES

It is not a career, It is another type of studies It consists of a 1 year degree and after another year in a superior degree and when you finish you can choose if you want to go to university or not. his degree is studied in a high school and they teach how to do the nails, do the hair and everything related to personal image

To study to be a beautician and to get prepared I have to do a degree of personal image.

I can do this degree in high school Colomer, Mare de deu de la Miraculos, vall d'Hebron & high school Pia Sant Antoni

To prepare for this job there is another option for people who don't have the ESO, a course called PFI Another thing you can do to prepare for this job is to practise with models doing their nails, hair, make-up, etc.....

You can do an online course to prepare but it is not going to be as effective as doing it presentially

EMPLOYMENT OUTLOOK

The difficulties that I can have finding work are that there are a lot of beauticians and a lot of competition. On the other hand there is a high demand for beauticians because people care more and more for their personal image

SKILLS AND ABILITIES NEEDED

The abilities needed are being able to recommend things to people, having a good attitude, know how to do make-up, cut the hair and the nails, it is necessary to have patience. Physically it's necessary having a good presence
