

GIRONA TOP 5

1. Jardineres de la francesa

This place was my favourite because I really loved the gardens. Walking along this place was peaceful and made me feel strongly good. I was mesmerised watching the flora and the construction style of the garden. Also, the story about what happened with Jewish people that the woman told us there was very interesting.

2. Girona's wall

In my opinion the best place to visit in Girona is Girona's walls because I reckon that the architecture of these walls is amazing. Although the walls are very old you can walk along them.

In addition, the views that you can see from the top are spectacular.

3. The riverside

I liked this spot because at that moment we were doing the Scavenger Hunt in English and it was my favourite part of the day.. I also like it because I'm with my friends and we were having a great time.

4. The cathedral

I liked the visit around the cathedral. I really wanted to see it because I had watched Game of Thrones and it appears in it. *Pau Pujol (1 Batxillerat A)*

I liked this place because of my love for the "Assassins Creed" saga, and the church in this saga looked like the picture.
