### RECYCLED ROSES WORKSHOP

#### CURRENT SITUATION

Roses are one of the three typical icons on St. Jordi's Day. However, behind the consumption of thousands of roses on a day like this, there is an environmental impact. The management of textile waste is also a very important challenge. According to the Environmental European Agency, textile shopping in the UE in 2020 was responsible for 270kg of CO2 emissions.

We must get used to giving textile a second life.

#### RECYCLED ROSES, A SUSTAINABLE ALTERNATIVE

In this workshop we are going to make a rose out recycled jeans and red fabric.

You can keep it or donate it to GND's Elderly home.

# RECYCLED ROSES WORKSHOP

Let's save the earth!

### BOOKMARK WORKSHOP

#### HAVE YOU ALREADY BOUGHT YOUR BOOK FOR ST JORDI'S DAY?

23rd April is a symbolic date in world literature. It is the date on which prominent authors like W. Shakespeare and M. de Cervantes died. Since 1995 this date has been chosen by UNESCO to pay a world-wide tribute to books and authors, encouraging everyone to access books. Nationally speaking, in Catalonia it has been traditional since 1931 to buy a book and a rose for the beloved one in one of the many stalls around.

Today is considered our "Lovers' Day"

#### ENJOY YOURSELF MAKING A BOOKMARK!

- Choose from the models (or design your own one).
- It's again made with mostly recycled material.
- Include icons of St Jordi (rose/love-dragon-books).
- You can keep it (WITH YOUR NAME AT THE BACK) or donate it to GND's Elderly home.

# ECO-FRIENDLY BOOKMARK WORKSHOP

## I am a Green Hero

Let's save the earth!

K-breTA COMIC WORKSHOP

### INTRODUCTION

The Legend of St. Jordi and the dragon is the classic fight of "good (St. Jordi) vs. evil (the dragon)". If you think about it, the Green Heroes Project is also about "good (represented by our mascot: K-breTA)" vs "bad" (consumerism, incivism, etc., everything which is a thread to the future of our blue planet).

### TRY YOUR HANDS AT MAKING A SHORT COMIC!

(Pair-work.) Draw and write a short comic adapting the typical fight "good vs evil" with K-breTA as the hero who beats the evil (that's anything that may be responsible for the climate emergency). Multilinguism is allowed.

# WRITING A COMIC

Let's save the earth!

### BOC'N ROLL WORKSHOP - A DEMO

#### PRODUCT DESCRIPTION

Boc'n Roll is a reusable wrap for sandwiches, biscuits, fruit and other food. It substitutes traditional non-sustainable products such as single-use plastic bags or tin foil.

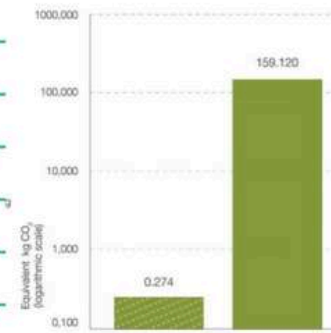

It is composed of cotton and polyester on the outside, and recyclable and extremely durable plastic inside. The wrap can be adapted to various sizes and shapes, and has an easy fastener to protect the food and hold it in place.

This product received a special mention in the Design for Recycling Award 2011.

#### COMPARISON BETWEEN BOC'N ROLL AND TIN FOIL (OVER A 6-YEAR PERIOD) [1]

1. Average production data for tin foil. The correct use of the Boc'n Roll, substituting tin foil over a 6-year period, could represent an approximate saving of 158 kg of equivalent CO<sub>2</sub>

## I am a Green Hero

Let's save the earth!

### ORIGAMI DRAGON WORKSHOP

#### WHY A DRAGON?

A green dragon is another typical icon on St. Jordi's Day.

What would the Legend of St. Jordi be without a dragon?

#### LET'S HAVE FUN MAKING A DOUBLY GREEN

#### ORIGAMI DRAGON!

- GREEN in the literal meaning
- GREEN, because we use recycled magazine paper ;)
- You can keep it or donate it to GND's Elderly home.
