<https://www.wikiloc.com/walking-trails/paseo-a-pie-torrent-dels-alous-entre-rubi-y-sant-cugat-34829451>

*What is it?*

Formerly this body of water was part of a farmhouse where olive trees and different crops grew. Currently it is a park and an urban site where people go to spend time relaxing, walking, running...

*The problems*

People pollute this stream and throw away the garbage, they usually throw plastic and cans that are very dangerous for the environment.

*The solutions*

THE SOLUTION FOR THIS STREAM TO STOP BEING SO POLLUTED WOULD BE TO STOP THROWING GARBAGE. WE CAN DO CAMPAIGNS WITH POSTERS TO RAISE AWARENESS AND PUT MORE VISIBLE CONTAINERS.
