

Summer work 4th of ESO

Hi all!

Here you will find the English summer homework! It is optional, but we recommend that you do something during this time.

You can review what has been done during the English course and finish your books.

You can also participate in an intensive English course in EOI Cornellà.

Moreover, we also recommend you to watch series or movies in English and of course, read a book or two in English too! It is always a good way to learn and improve your English skills!

We will also give you some other extra resources that you can do to not get bored during summer holidays!!!

Have a nice summer!!!

With love,

All your English teachers!
