

## Erasmus Policy Statement (Overall Strategy)

Planning of the strategies for the internationalization of the Institut Montsia:

Starting point: The HEI Montsia has already participate in interchange programs in the center with John Oglivie High School in Hamilton (Scotland), being a very positive experience.

### Objectives

- To improve lifelong learning
- To improve language knowledge
- To know the work place in enterprises of the countries
- To visit and know other cultures and traditions
- To display the experience in the environment of the European Union

### Action Plan

The HEI has a teamwork with different strategies:

- This teamwork is composed by teachers with language competence
- We selected the students by a filter determined by the teamwork
- We have periodic meetings
- We give the students knowledge about the place were they are about to visit

### Monitoring and assessment

- Monitoring and assessment via the on-line web platform qBid, as well as the information gathering via satisfaction surveys.
- Corrective measures in case of deviations related with the program

### Main Partners

The Education Department of the “Generalitat de Catalunya” provide the contacts with others HEI, as well tutors have some contacts in Europeans HEI and universities that could make European mobility.

### Geographical area

The main geographical interest area: France, Italy, United Kingdom, Ireland and Germany.

### Mobility target groups

This program is addressed to short cycle student and staff to do a student exchange and traineeships.
