School facilities

Our high school is located in Collbató, next to Mansuet school. In our school there is a big beautiful entrance. When you come in, there is a porch with another entrance and there is a bike park on the left. Inside, you will see the front desk and to the right there is a canteen. Our school has two floors: on the first one there are the first grade students and on the second floor there are the second, third and fourth-graders. There are two spacious laboratories, a class for art, one for music, one for ICT and some classrooms with less people for support lessons (but with the Covid we use them for other classes). There is a big beautiful playground behind the school with a basketball court which is used for football too.
