A wide-angle photograph of a beach. The foreground is dominated by light-colored sand with gentle ripples. The ocean is a vibrant turquoise color, with white foam from waves washing onto the shore. In the distance, there are dark, hazy mountains under a clear blue sky. A small cluster of buildings with red roofs is visible on the left side of the beach. The entire image is framed by a black and white diagonal striped border.

Dear Erica,

I'm writing to you from Cadeiras, it is a very small village from Galicia. I am in my grandparents house. Today I went to the Aguieira beach. The beach is almost in front of my grandparents house! The water is cold but I don't care, I went swimming anyway. I collected shells too. I found a beautiful one, it is pink and brown. How is it going in Navarcles?

See you soon,
