

# BETWEEN BRATWURST AND PA AMB TOMÀQUET

Jana Molina and Lila Padrós

18 February, 2026

Last week our homes became a meeting point between cultures. We welcomed some German students to do an exchange. We had plenty of curiosity to see the cultural differences between us.

Since the first day, the cultural differences appeared, being the main source of laughs. We went for a walk almost every day to visit the most interesting places in our town and surroundings. We had a lot of fun together creating new memories we will never forget. They discovered "Pa amb tomàquet" and the typical potato omelette, which they wanted to eat every day. The Catalan people discovered new words in English and even in German. While the Germans learned some Spanish.

In addition to having the German people with us, we also had some unusual experiences with us. On Tuesday and Wednesday, there was a strike, and on Thursday, there was an unusual occurrence, a wind tornado, which made their stay more difficult. Despite these events, we finally went to see Montserrat, our most famous mountain in our area.

This week was a little bit different from the others, but, even with those obstacles, it was an experience that we will never forget. It has contributed to our knowledge and personal growth.
