

## SINS CARDENER

# THE FUNNIEST DAY OF THE YEAR

**O**n February 14th, our middle school, SINS Cardener, celebrated one of the most exciting days of the year: Carnival. For one whole morning, the school routine disappeared, and the school was filled with color, music, and creativity. Students and teachers came together to show their amazing costumes.

### What activities did we do?

Each tutorial group chose its own theme and prepared a group costume. The competition was full of originality, and the winners received a special prize, that is, a breakfast and a diploma.

### The Perfect Ending

Carnival at SINS Cardener was a fun and unforgettable day full of creativity, laughter, and teamwork. After all the performances and activities, we went home ready to enjoy the weekend with great memories!

The award for the most original costume went to Yolanda and Gerard's tutorial group, that impressed everyone with their sea-themed outfits. Another prize, for best performance, was won by the "Marisc Gesé" group for their energy and great acting on stage. There was also an individual prize, which was awarded to Vinyet for her fantastic costume.

All the winners were chosen by a jury made up of students from SINS Cardener

Because it was raining, the traditional "xaranga" was held inside Cal Gallifa instead of around the town, but the atmosphere was still lively and exciting. After the performances and prize ceremony, the 4th year students organised a fun relay race where teams of five had to put on as many costumes as possible.
